# FROM THE EXECUTIVE'S DESK

**MR. DILIP SHANGHVI**  
Managing Director & Chairman -  
CSR Committee

**MR. SUDHIR VALIA**  
Whole-Time Director and Member -  
CSR Committee

Since our inception in 1983, Sun Pharma has firmly followed the philosophy of expanding the availability, accessibility and affordability of quality healthcare products. With our rapid growth at both the national and global level there has been a pressing need to make our business sustainable and be a strong partner in the emerging phenomenon of corporate citizenship. We have been proactively promoting the Indian government's national objective of 'Health for All'. Today, our healthcare initiatives are nourishing and renewing the lives of over 6,50,000 people, primarily in rural India. We are addressing growing concerns of the threats related to diarrhea and pneumonia, severe malnutrition of children under 5 years of age, high rates of infant and maternal mortality and poor awareness on diseases like HIV/AIDS, malaria, tuberculosis etc. Sun Pharma is committed to its CSR vision of improving the health of underserved communities, in a sustainable and impactful manner.

We are citizens of a 'global village' and every individual, community, and social, economic & political entities should make efforts to bring about global equity and sustainability. With this perspective in mind, Sun Pharma is utilizing its business acumen to be a catalyst for holistic development, and promoting the dignity & worth of vulnerable communities as well as protecting the environment in which we live. While we feel proud about the impact our interventions are having on beneficiaries, we are constantly striving to maximize our impact and outreach, to build a positive relation between our business and society.

**MS. REKHA SETHI**  
Independent CSR Director

**MR. AZADAR KHAN**  
Sr. VP - Corporate Relations

While we attach considerable value to innovation and technology to further our core business, we at Sun Pharma are equally passionate about bringing a positive and long-lasting change in the communities we serve. 'Sustainability' is the key word of our time and Sun Pharma understands that it holds the responsibility to integrate sustainable practices into the very heart of its activities. At Sun Pharma, we have worked diligently to bring our interventions up to the standards of the Millennium Development Goals (MDGs). Currently, the world is witnessing a shift from the Millennium Development Goals (MDGs) to Sustainability Development Goals (SDGs). While our progress has shown positive trends, the SDGs will now guide us to achieve higher milestones in delivering value to our society and realizing our vision of a better world.

Sun Pharma has witnessed rapid growth with an ever-increasing global presence. We aim to balance our profit orientation with lasting social and environmental sustainability. In the past few years, our CSR efforts in India have spread across number of districts and villages across the states of Sikkim, Gujarat, Punjab, Madhya Pradesh, Tamil Nadu, Himachal Pradesh and Maharashtra. We firmly believe that our performance is intrinsically linked to the health and vitality of the communities we live and work. There was meaningful progress primarily in the areas of health, education, rural development, water & sanitation, ecological security & disaster relief. We at Sun Pharma would continue to promote a culture of inclusivity with our local communities to help them live healthier.

# IDENTITY AND PHILOSOPHY

As the 5th largest generic pharma company globally and number one in India market, Sun Pharma is synonymous with providing quality healthcare. Established in 1983, the company has operations in more than 150 countries across five continents. Known for quality and cost competitive products, the company's manufacturing footprints cover states of Sikkim, Tamil Nadu, Maharashtra, Gujarat, Madhya Pradesh, Himachal Pradesh, Jammu & Kashmir, Punjab and the Union Territories of Goa, Dadra and Nagar Haveli along with facilities abroad.

## A SNAPSHOT OF THE COMPANY'S BUSINESS ACTIVITIES ARE AS FOLLOWS:

- Over 45 manufacturing sites across 150 global markets
- Over 2,000 quality products
- More than 30,000 employees contributing to organisational growth
- Nearly 8% of annual revenues invested in R&D
- Over 300 Active Pharmaceutical Ingredients (APIs) produced

Besides core business activities, Sun Pharma also attaches great value to promoting a sustainable and cohesive world. 'Good health for all' along with achieving environment, health & safety (EHS) commitments in all activities are an integral part of Sun Pharma's corporate culture. The company continuously strives to improve the access and affordability of health facilities for people living with HIV/AIDS (PLHAs). Also, it is dedicated to R&D and develops drugs to counter tropical diseases such as malaria, dengue, etc., which pose a threat globally. The company's social projects are based on being an active partner in 'creating shared value' by successfully balancing organizational growth & development and strengthening economies, the market place and communities.

To support efforts of the Indian government for equitable delivery of the benefits of economic growth, CSR was made mandatory in 2013 under clause 135 of the Companies Act, 2013.

Sun Pharma has been instrumental in driving social development projects through its CSR department and a registered NGO - Sun Pharma Community Healthcare Society (SPCHS). The primary focus of the society is delivering affordable and accessible quality healthcare to vulnerable communities, especially in rural India. With growing importance now attached to CSR and Creating Shared Value (CSV) Sun Pharma has been able to strengthen, streamline, scale up and give a concrete identity to its social development initiatives.

While health is still a core focus, the company has also extended its activities to other thematic domains like education, rural development and sustainable livelihoods, water and sanitation, environmental and ecological protection as well as disaster relief and reduction efforts.

The company has developed a CSR Policy, which serves as a guideline for compliance with the CSR clause in the Companies Act, 2013. It provides a clear direction for action, ensures effective implementation and sets concrete measures for analyzing impacts. The policy also serves to create opportunities for employee engagement in socially responsible initiatives.

## Sun Pharma Corporate Social Responsibility (CSR) Policy

The CSR Policy of Sun Pharma lays down the guidelines and mechanism for undertaking socially useful programs for welfare & sustainable development of the community at large.

### CSR Vision and Mission Statement

#### Vision:

'We will strive to bring about the holistic development of underserved communities in a sustainable and impactful manner'

#### Mission:

'We will leverage our people, expertise and networks to address the needs of the communities that we serve and thereby catalyze overall development'

**Drawing from the CSR vision and mission statement of the Company, the CSR policy has been formulated with the following objectives:**

**Serving the Community:** Giving back to the community and addressing their needs is a key priority for the Company. The Company believes that the progress of the local community should go hand-in-hand with the growth of the Company. The Company therefore intends to concentrate on the communities immediately around its areas of operation and support their upliftment.

**Focus on Quality:** The Company believes in delivering high quality support to meet the needs of the community.

**Ensuring Sustainability:** The Company wishes to introduce interventions in the communities that address critical needs and can become sustainable over a period of time.

**Leveraging Resources:** Leveraging the Company's internal resources such as research, marketing, financial, human resources and products to maximize impact in social initiatives.

# COMMITMENTS AND INVESTMENTS: FROM VISION TO ACTION

## PUNJAB

Number of villages covered: 124

Population reached: 3,52,864

Key needs identified: Health

## HARYANA

Number of villages covered: 06

Population reached: 21,076

Key needs identified: Health

## GUJARAT

Number of villages covered: 42

Population reached: 24,527

Key needs identified: Health, education,  
drinking water, sanitation

## MAHARASHTRA

Number of villages covered: 10

Population reached: 56,815

Key needs identified: Health, education,  
drinking water, sanitation

## Sun Pharma's Social Presence

Sun Pharma's social interventions for 2015-16 spread across eight states covering approximately 273 villages. The company engaged with culturally diverse communities especially in rural India, always giving primacy to the most vulnerable. All their goals and activities are framed only after a concrete understanding of the needs of different target groups.

### HIMACHAL PRADESH

Number of villages covered: 11

Population reached: 21,354

Key needs identified: Health

### SIKKIM

Number of villages covered: 41

Population reached: 24,597

Key needs identified: Health, education, drinking water

### MADHYA PRADESH

Number of villages covered: 29

Population reached: 52,727

Key needs identified: Health

### TAMIL NADU

Number of villages covered: 10

Population reached: 17,298

Key needs identified: Education, rural development (food security through PDS), sanitation, drinking water, disaster relief

## A Macro Perspective

As per the Human Development Report (2015), released by the United Nations Development Program (UNDP), India ranks 130th (among 188 countries) in the Human Development Index (HDI).

Sun Pharma through its various CSR initiatives has been contributing to promote equitable and holistic growth for all social segments, especially the economically and socially marginalized. The key areas of intervention/project focus are in sync with the Sustainable Development Goals (SDGs) - the current benchmark for measuring social progress.

**SDG 3 | GOOD HEALTH AND WELL BEING**  
  
Sun Pharma Project Focus:

**ENVIRONMENT & ECOLOGY**

**SDG 13 | CLIMATE ACTION**  
  
Sun Pharma Project Focus:  
**DISASTER RELIEF**

# IMPROVING THE HEALTH STATUS OF COMMUNITIES

Health, both physical and mental, of all individuals is a key determinant of overall progress. India adopted the objective of 'Health for All' in 1978. Today, the newly adopted SDGs of the United Nations has 'good health' as its top priority. The key indicators on the status of health and healthcare in India show that while rates of maternal mortality (MMR) and infant mortality (IMR) are showing a comparatively better picture overtime, instances of lifestyle diseases are on the rise.

PROJECT/ACTIVITY	OPERATIONAL AREA			
	STATE	DISTRICT	BLOCKS	VILLAGES
Mobile Medical Units (MMUs)	Sikkim	East Sikkim	3	10
	Maharashtra	Ahmednagar	1	10
	Gujarat	Panchmahal	1	15
	Punjab	Mohali, Nawanshehar, Amritsar, Bhatinda, Muktsar, Mansa	11	124
	Himachal Pradesh	Sirmour	1	11
	Haryana	Gurgaon	1	06
	Madhya Pradesh	Dewas	1	09
Mother and Child Health (MCH)	Madhya Pradesh	Dewas	2	82
Health camps	Sikkim	East Sikkim	3	10
	Gujarat	Panchmahal	1	10
Cataract surgery support	Andhra Pradesh, Assam, Maharashtra, Odisha, Rajasthan, Telangana, Uttarakhand	Multiple	Multiple	100+
Pediatric and cerebral palsy post-operative treatment support	Gujarat Dadra and Nagar Haveli, Maharashtra	Valsad, Dharampur Navsari, Daman Mumbai	Multiple	100+
Kidney dialysis amenities support	Maharashtra	Mumbai	1 Hospital	
Cancer treatment amenities support	Maharashtra	Nagpur	1 Hospital	
	Uttar Pradesh	Allahabad	1 Hospital	

The healthcare infrastructure in India should include a well-distributed workforce, capacitated institutions, information systems for data collection and quality improvement analysis to match up to the rapidly growing requirements. Even though progressive advancement has been achieved, there is still need for increased efforts to achieve good health and quality healthcare for all.

The Sun Pharma Community Healthcare Society (SPCHS) along with its valuable partners has been striving to achieve its goal of good health for all, especially for marginal and underserved communities in its operational areas. Attention is primarily given to improved accessibility, active public participation, health promotion, making available appropriate technology and inter-sectoral co-operation.

Sun Pharma has taken up health initiatives in the following 3 key areas:

- Preventive health measures
- Promotive health measures
- Curative health measures

### Mobile Medical Unit (MMU): A preventive health activity

As its flagship project, Sun Pharma has adopted the government of India's 'National Health Mission' mechanism of reaching out to rural and remote areas through MMUs. Equipped with quality medical staff, the Sun Pharma operated MMUs provide free-of-cost medicines, health check-ups as well as counseling and referral services to remote and isolated communities at their doorstep.

Along with directly providing medical care, health awareness sessions are also conducted regularly on different topics like:

- Reducing infant and maternal mortality rates
- Health, hygiene and nutrition for adolescent girls
- Prevention and control of communicable, non-communicable and other prevalent diseases

### LIVES TOUCHED

Curative treatments

**2,43,607**

Promotive and preventive health services during IEC Camps

**1,67,575**

Clinical breast examination and awareness on Self Breast Examination (SBE)

**7,891**

PAP Smears

**1,596**

Oral cavity examination

**6,260**

Total

**1,83,322**

## Mother and Child Health (MCH): A promotive health activity

To promote appropriate prenatal and postnatal care for mothers, and holistic child development, Sun Pharma initiated the project 'Maatra Shishu Swasthya Seva' (Mother and Child Healthcare) in its operational areas. With the objective of reducing infant and maternal mortality rates and improving the health of adolescent girls, this project extends information and education on health, hygiene and nutrition to mothers (pregnant and lactating) as well as potential mothers (adolescent girls). Moreover, comprehensive antenatal and postnatal care, emphasis on institutional deliveries as well as tracking nutrition and health status of infants (0-5 years) are the key activities undertaken towards realizing project objectives.

### LIVES TOUCHED

Services to potential mothers during home visits by ANMs

**19,988**

Children between 0-3 years immunized

**11,646**

Antenatals registered, tested and given complete care

**4,939**

Postnatal Care

**4,485**

Home-based neonatal care by ASHA workers

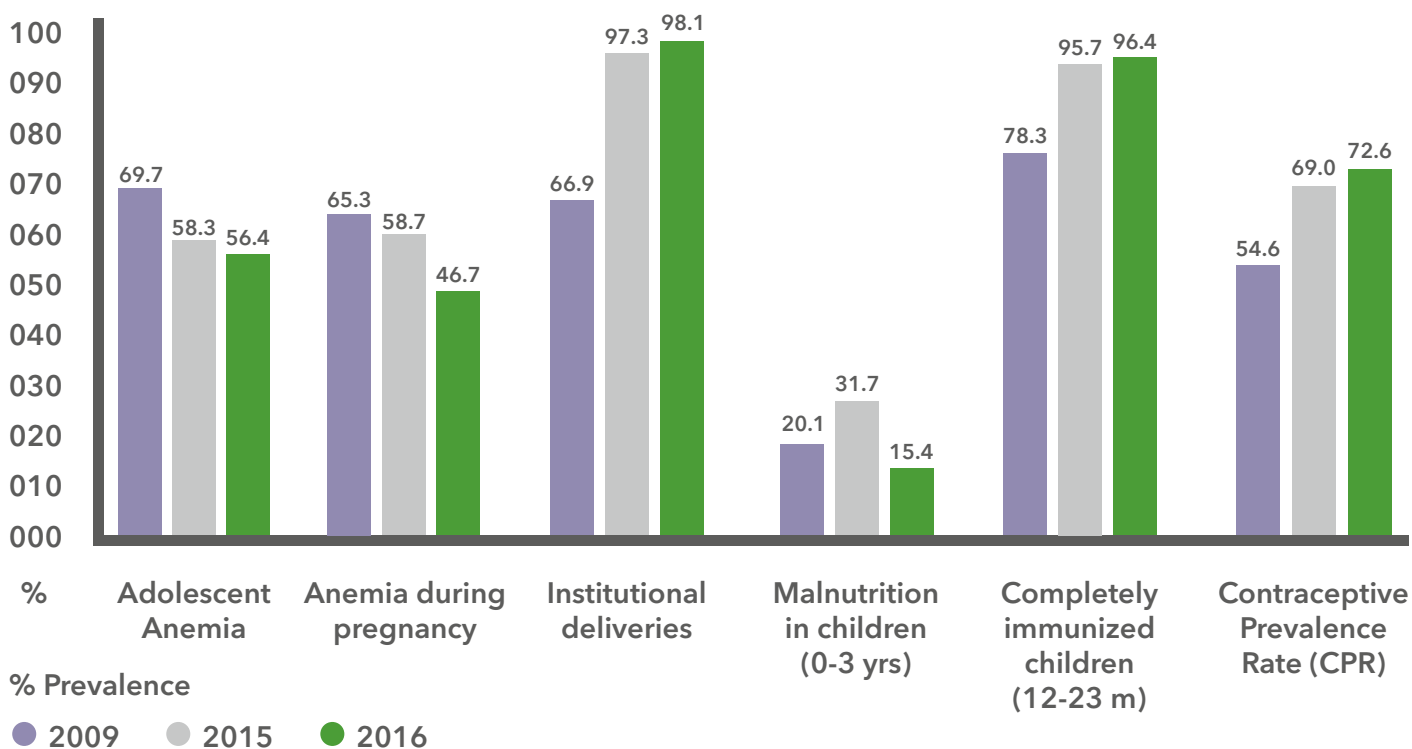

**2,160**

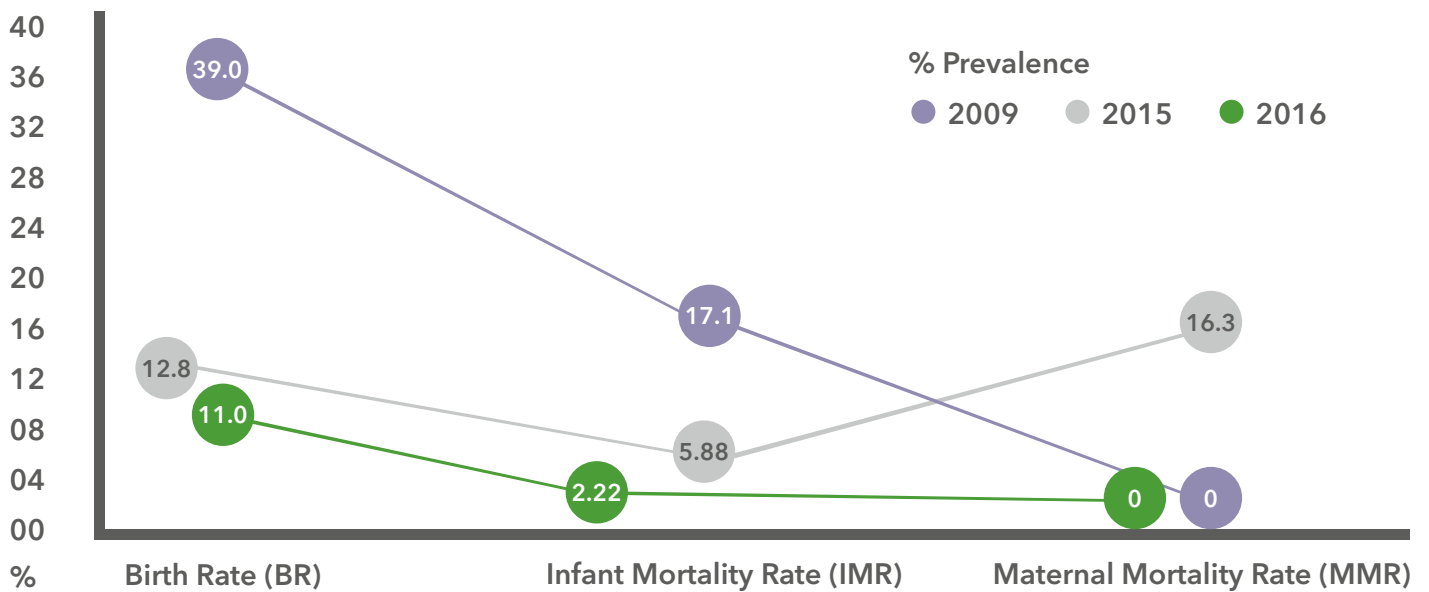

Growth chart monitoring (0-3 years)

**10,860**

### 54,078 PEOPLE REACHED

### Provision of quality medical equipment: A curative health activity

The shortage and poor quality of functional medical equipment is a critical barrier in efficient delivery of health services. To address this growing concern, Sun Pharma has extended technical and financial support to hospitals in urban and semi-urban areas.

To ensure access and availability of high precision cancer treatment for patients excluded from the healthcare system, the company has taken up the following key activities:

- Establishment of a cancer treatment hospital at Nagpur in Maharashtra with high quality equipment and facilities
- Setting up of a high energy linear accelerator for cancer care at Kamla Nehru Memorial Hospital in Allahabad
- Donated 3 units of kidney dialysis equipment at K.J. Somaiya Medical Trust in Mumbai to meet the dialysis requirements of patients who are economically burdened by the need for regular treatment
- A digital X-ray machine was set up at Sir Thodup Namgyal Memorial (STNM) hospital in Gangtok, Sikkim through support from Sun Pharma

Health consultation through MMU: Nagar, Maharashtra

## Other Activities

Besides, to address the increasing instances of cataract related blindness primarily due to high cost of surgery coupled with lack of good surgeons, the company provided free cataract examinations and surgeries to marginalized communities. Also, to inculcate positive health practices from a young age and to track & monitor the health status of children, Sun Pharma conducted health camps at government schools in Gopipura and Tarkhanda villages of Halol block in Gujarat.

### PROGRESS MAP

Mobile Medical Units (MMU)  
**2,43,000** Individuals

Mother & Child Health (MCH)  
**2,37,000** Individuals

Health camps  
**1126** Individuals

Cataract surgery support  
**1,000** Individuals

Kidney dialysis amenities support  
**10,860** Individuals

Pediatric and cerebral palsy post-operative treatment support  
**151** Individuals

Financial support for developing cancer treatment amenities

#### 'HEALTH REPORT CARD'

Sun Pharma is always looking to expand and scale up its social development interventions for the neglected and vulnerable communities of its operational areas. With this objective Sun Pharma's dedicated team organized a health camp for an Ashram school located deep inside Gopipura village of Halol block in Gujarat. As part of the health camp, a 'health card' was made for each student, monitoring and tracking indicators like height, weight and blood pressure. In case of any discrepancies identified in these indicators immediate medication was provided. Sun Pharma plans to track the changes in the physical development of these students through continuous monitoring.

#### (( Testimonials ))

"The health camp organized by Sun Pharma has helped us to monitor and track the physical growth of our students. It is a good way to nip in the bud concerns like malnutrition, morbidity and child mortality. We are thankful to the Sun Pharma team for their continuous efforts."

Principal, Ashram Shala, Gopipura

## BENEFICIARY DOSSIER

A few months ago, Janabai Kisan Netake, a 70-year old from Shendi village in Ahmednagar, faced multiple health concerns, and the problem was exacerbated with her meager income, which made availing treatment almost impossible. To address this growing health concern she approached the MMU operated by Sun Pharma in her village. Over time, regular medication has affected her health positively. She is now a spearhead in the community, motivating others to avail the benefits of the MMU. In her words, the MMU has not only helped her regain her physical health but also her mental strength and confidence.

Balubhai Lallubhai Parmar, 54 years old, resides in a remote village in Halol block of Gujarat. For years he has been suffering from joint pains but the critical economic condition of his family forced him to neglect his health. The need for financial security eventually led to his sons leaving the village in search of jobs, leaving Balubhai and his wife to fend for themselves. Aggravating health coupled with poor economic status made visiting hospitals and meeting the growing costs of doctors and medicines strenuous. When Sun Pharma operationalized MMUs in Halol it was a ray of hope for this couple. With regular medical care at his doorstep there is considerable progress in Balubhai's health condition. For him the MMU is nothing short of a blessing.

Lack of awareness about healthcare plus financial constraints often result in symptoms of poor health being ignored. Sukman Lumjel, a beneficiary from Sikkim, neglected complaints of constant headache, dizziness and blurring vision as mere signs of aging. However, when the Sun Pharma MMU reached his village he got himself examined and was diagnosed with hypertension and a mature cataract. While his hypertension has now been brought under normal limits through medicines from the MMU, his cataract surgery has also been completed at a nearby hospital through Sun Pharma's recommendation. The efforts of Sun Pharma have brought about a positive change in the life of Sukman Lumjel.

58-years old, Munna Lumjel, had been suffering from seizures since a young age but never underwent treatment due to the difficult socio-economic condition of her family. Over the years the intensity increased and she saw the MMU as an opportunity to address this long-standing health concern. Medical tests and examinations confirmed epilepsy and Munna was put on the necessary medication. Today she has seizure free intervals of 2 to 3 months which is a marked improvement from when she suffered episodes 3 to 4 times a month. This change in her health condition has improved her productivity at work as well as her ability to manage household chores.

Discussion on good health, hygiene and nutrition for adolescent girls: Paonta Sahib, Himachal Pradesh

Awareness session on Self Breast Examination: Mohali, Punjab

Immunization camp for children between 0-3 years: Mohali, Punjab

Flagging off the MMU: Ranipool, Sikkim

## HOLISTIC CHILDHOOD FOR HOLISTIC FUTURES

Poor maternal and child health is a grave concern that hampers both women and children from achieving their potential. Sun Pharma through its Mother and Child health activities has been striving to achieve good health for mother, child as well as potential mothers in its operational areas. Two stand-out cases were from Punjab and Madhya Pradesh. In both situations the pregnant mothers were identified as being in a high risk pregnancy at the time they approached the Sun Pharma MMU with medical complications. With timely tests, nutrition and healthcare followed by safe institutional delivery, the women gave birth without any major obstacles. Postnatal care was also regularly given to the mothers and children. Sun Pharma's dedicated team has been regularly following up and monitoring their health status as well.

### (( Testimonials ))

"It is very difficult for us to go to the hospital because of the distance and the cost is also high. So this service (MMU) is helping the poor and the unreachable."

Sai Kumar Rai, Beneficiary, Sikkim

# SHAPING FUTURES THROUGH QUALITY EDUCATION

**E**ducation is the foundation on which an entire nation's development is built. The SDGs emphasize on quality education. In India, the Right to Education Act (RTE) guarantees free and compulsory education for all children between 6 and 14 years of age. Despite these noble goals there are barriers such as gender based inequities, lack of and poor quality of infrastructural amenities, religious and caste based discrimination which are proving to be too difficult to overcome. A 2014 report from the Ministry of Human Resource Development has highlighted a progressive decrease in Gross Enrollment Ratio (GER) from primary education to higher education. While 99.3% of children are enrolled in primary schools, only 21.1% attend colleges or universities. Through these facts, it is evident, that India still has a long way to reach full accomplishment of its goals for education.

## PROJECT OVERVIEW

PROJECT/ACTIVITY	OPERATIONAL AREA			
	STATE	DISTRICT	BLOCKS	VILLAGES
School infrastructure development	Tamil Nadu	Kanchipuram	1	3
Construction of 'water huts'	Gujarat	Panchamahhal	1	1
		Bharuch	1	2
Installation of water purification units	Gujarat	Panchamahhal	1	4
		Panoli	1	2
	Sikkim	East Sikkim	3	6
School fencing and retention wall	Sikkim	East Sikkim	3	3
Enhancing education through ICT	Gujarat	Valsad	1	1
Extra-curricular activities	Sikkim	East Sikkim	5	6
	Tamil Nadu	Kanchipuram	1	2
	Gujarat	Panchamahhal	1	3

Sun Pharma has adopted the Ministry of Human Resource Development's (MHRD) concept of 'Model Schools' which emphasizes on high quality infrastructural amenities, balanced pupil-teacher ratio, Information, Communication and Technology (ICT) and appropriate curriculum for a school environment that promotes the culture of learning.

For the year 2015-2016 Sun Pharma engaged with government schools across villages in Tamil Nadu and Gujarat to make better infrastructural amenities available like toilets and water facilities to promote sanitation and hygiene, clean drinking water, and build well-equipped and ventilated classrooms.

In addition, to ensure safety and security for students in the school premises, Sun Pharma erected fences and a retention wall around government school compounds in rural Sikkim. A partnership was established with a local NGO in Valsad district of Gujarat - Shrimad Rajchandra Education Trust - to integrate ICT into the education models of government schools in the rural areas of this district. The objective was to make learning more interactive, and through technology literacy prepare students for a work culture where usage of computers, internet and related technologies is becoming ubiquitous. Lastly, apart from core education and academic knowledge, the initiatives have also focused on increasing student participation in extra-curricular activities and imparting soft skills to the young generation as well as attitudes promoting social, economic and ecological justice.

### PROGRESS MAP

School infrastructure development

**395** Students  
**28** Teachers

Construction of 'water huts'

**955** Students

Installation of water purification units

**3076** Students

School fencing and retention wall

**500+** Students

Enhancing education through ICT

**364** Students

Extra-curricular activities

**1416** Students

### (( Testimonials ))

"Events like this for school students encourages them to actively act as a social agent to spread awareness messages in their villages. Sun Pharma has always supported us to organize these kind of events. Participation of various resource persons like plant heads has made these events a real exposure for our students. Thanks to the Sun Pharma CSR team."

Mr. Bikash , Teacher, Aho Kishan Secondary School, Sikkim

'Model School' infrastructure development: Madurantakam, Tamil Nadu

Making education interactive through ICT: Valsad, Gujarat

Students' participating in a cultural event: Madurantakam, Tamil Nadu

Water hut providing drinking water: Ankleshwar, Gujarat

Student benefiting from a newly installed water purification unit: Nagar, Maharashtra

School fence erected to ensure safe school environment: Ranipool, Sikkim

# HOLISTIC VILLAGE DEVELOPMENT

It had been rightly stated by Mahatma Gandhi that the future of India lies in its villages. India is predominantly a rural country. However with increasing resources being diverted towards industrialization and urbanization, our villages have to a large extent been marginalized from the fruits of economic development. There have been attempts made by the Indian government through schemes and social security programs to alleviate challenges in the rural society and bring rural development up to the pace of their urban counterparts. The SDGs also emphasize on eliminating poverty and reducing inequalities. However rural communities are still weighing under the burden of unemployment, poor infrastructure and weakening governance systems. The Government cannot function in isolation and their efforts have to be backed by organisations like Sun Pharma.

## PROJECT OVERVIEW

PROJECT/ACTIVITY	OPERATIONAL AREA			
	STATE	DISTRICT	BLOCKS	VILLAGES
Strengthening the public distribution system (PDS)	Tamil Nadu	Kanchipuram	1	1
Community development through rural tourism	Gujarat	Panchmahal	1	2

The company has taken steps to strengthen the government's public distribution system (PDS) in Tamil Nadu. Although, the state has been highlighted as the most successful model for implementation of universal PDSSun Pharma came across instances of a few remote rural locations where the availability and accessibility to essential food grains was proving to be a challenge, especially due to lack of proper storage facilities.

The CSR team, keeping in mind its objective of 'serving the community' responded by constructing a 'Fair Price Shop' at Santhmmai village in Tamil Nadu. The shop makes quality products available and is equipped with proper amenities for storage. The efforts have served to support and strengthen government initiatives for a universal and effective coverage of the PDS.

Champaner-Pavagrah, a UNESCO world heritage site located around Sun Pharma's operations at Halol in Gujarat is steeped in traditional art, culture and heritage. The company has taken the initiative of promoting the concept of 'destination development' in this area. The first step taken was to sponsor 'Panchmahotsav 2015' - an annual 5-day event organized by the Panchmahal district administration. The objective of this event is to hone the rural potential for tourism and give a platform to its indigenous culture and art forms. Sun Pharma's larger goal for promoting rural tourism is dual - firstly, enhancing socio-economic benefits for the local community, especially through developing livelihood options that are in congruence with the already available skill set. Secondly, enabling interaction between tourists and the local population for a mutually enriching experience.

### PROGRESS MAP

Strengthening the PDS

**125** Households

Community development through rural tourism

**5,000** Individuals

### Inauguration of fair price shop: Sathammai, Tamil Nadu

# PROVIDING BASIC NEEDS (WATER AND SANITATION)

**C**lean drinking water and amenities for hygiene and sanitation is directly linked to good health status of individuals, communities and a nation as a whole. A latest status report by UNICEF has shown that the world has missed the MDG sanitation target by almost 700 million people. As for India, majority of the states have not been on track to meet the MDGs for both clean drinking water and sanitation. Rural areas show far lower performance indicators than urban areas. The Ministry of Drinking Water and Sanitation is strategizing and planning to promote clean drinking water for all through the 'Swachh Bharat Mission' (SBM). Achieving the national as well as global targets of clean water and sanitation would require active collaboration and partnership between the government, non-governmental organizations and corporate bodies.

## PROJECT OVERVIEW: DRINKING WATER

PROJECT/ACTIVITY	OPERATIONAL AREA			
	STATE	DISTRICT	BLOCKS	VILLAGES
Amenities for water storage and connection	Sikkim	East Sikkim	1	1
Clean drinking water provision	Tamil Nadu	Kanchipuram	1	1
Clean drinking water for schools	Rajasthan	Alwar	1	1
	Maharashtra	Ahmednagar	1	5
	Gujarat	Panchmahal	1	4

In order to provide holistic access to clean drinking water two aspects are important - firstly, the availability of water and secondly, availability of storage. While water was available from a perennial water source in the village at Sikkim, access to it was a challenge due to lack of connective pipelines. Moreover, proper water storage amenities were also not available in the village. Sun Pharma decided to address this need by constructing three water storage tanks and 30 stand posts in this area.

Another initiative towards 'clean drinking water for all' was undertaken for families at Malaipalayam village in the state of Tamil Nadu. Peaked summers and dismal rainfalls made it a challenge for the government alone to meet the water needs of the village community. The company extended support by providing drinking water for 60 days across five wards of Malaipalayam.

Sun Pharma has also collaborated with different schools and educational institutions to make clean drinking water available for children. Under these efforts the following key activities were taken up:

Facilities for clean drinking water to a school for differently abled children in Alwar district of Rajasthan

UV based water purification systems, water stations and water coolers for schools in Ahmednagar district of Maharashtra

Installation of RO water purification systems at four government schools in Panchmahal district of Gujarat

### PROGRESS MAP

Amenities for water storage and connection

**28** Households

Clean drinking water provision

**960** Households

Clean drinking water for differently abled students

**20** Students

Clean drinking water through RO systems

**10** Schools

### (( Testimonials ))

Based on the appeal of villagers and ward members we requested the company to make necessary provision of drinking water facility to five wards of Malaipalayam. Since it is an essential requirement for family members of 960 households, the company gave a positive response by arranging drinking water facility twice a day at earliest. Our town panchayat along with our ward members thank the management for their immediate response.

Town Panchayat Executive Officer, Drinking Water Project

"We have reports from the field that Sun Pharma has done a good job in Abhetwa village. Congratulations and we are looking forward to have your success story replicated at other places as well."

CSR Project Team, Office of District Collector, Panchmahal, Gujarat

## PROJECT OVERVIEW: SANITATION

PROJECT/ACTIVITY	OPERATIONAL AREA			
	STATE	DISTRICT	BLOCKS	VILLAGES
Construction of Individual Household Toilets (IHHTs)	Gujarat	Panchmahal	2	3
		Bharuch		
Financial assistance for construction of toilets	Tamil Nadu	Kanchipuram	1	5
	Maharashtra	Ahmednagar	1	4
Celebration of 'Global Hand-Washing Day'	Gujarat	Panchmahal	1	2

To contribute towards the Indian government's 2019 goal of 'Swachh Bharat' Sun Pharma has undertaken activities to promote sanitation across most of its operational areas. The team first created awareness and focused on bringing behavioral changes in rural communities on sanitation and hygiene practices. They then concentrated on building better sanitation infrastructure like toilets, disposal bins, etc.

One of the key activities for better sanitation infrastructure in rural areas has been supporting and promoting the construction of individual household toilets (IHHT). While, on the one hand, Sun Pharma has directly engaged in constructing IHHT in Abhetwa and Ujeti villages of Halol block in Gujarat, on the other hand financial assistance has been extended to rural communities in Tamil Nadu and Maharashtra above the government subsidy of Rs. 12,000 for construction of one unit of IHHT.

With the objective of instilling practices of personal hygiene from a young age, 'Global Hand-washing Day' was celebrated in two government schools of Halol block on 15th of October 2015.

## PROGRESS MAP

Financial assistance for construction of toilets

**73** Households

Construction of Individual Household Toilets (IHHTs)

**210** Households

Celebration of 'Global Hand-washing Day'

**500** Students

### (( Testimonials ))

"The support by the company in providing additional incentives of Rs. 6500 has brought about a vibrant change in the village. We couldn't construct toilets based on the subsidy given by the government, but now the people are interested in constructing toilets with the help of the state government and Sun Pharma."

Mr.Rajini, Panchayat Clerk, Beneficiary of IHHT Project

### Sun Pharma Team Field Survey for IHHT Construction Project-Panoli, Gujarat

Water supply to meet community drinking water requirements: Malaipalayam, Tamil Nadu

Financial support being provided for the construction of IHHT: Nagar, Maharashtra

Improved sanitation infrastructure:  
Halol, Gujarat

Water station providing clean drinking water to school students: Halol, Gujarat

Celebration of 'Global Hand-Washing Day' at Government schools: Halol, Gujarat

### ABHETWA AND UJETI - A STORY SYMBOLISING THE ESSENCE OF SWACHH GRAM, NIRMAL GRAM

Sun Pharma has been the leading sanitation initiatives in the Abhetwa and Ujeti villages of Halol Block in Gujarat with strong support from its implementing partner Gramin Vikas Trust (GVT). Since the launch of 'Swachh Bharat Mission' (SBM) in October 2014, Sun Pharma's efforts have set a benchmark in the corporate contribution towards realizing the goals and objectives of SBM. With a 73% achievement rate already accomplished of our overall toilet construction goal, dedicated efforts on field from our staff and our commitment to ensure active participation and commitment of the local community has highlighted Abhetwa and Ujeti as pioneering examples in improved sanitation infrastructure. With Sun Pharma acting as a catalyst, these two villages are rapidly progressing towards an 'Open Defecation Free' (ODF) status and towards our Prime Minister's vision of 'Swachh Gram, Nirmal Gram'.

#### (( Testimonials ))

"Interactions with the community in Abhetwa village make it evident that they are effectively sensitized on the usage of toilets. There is a behaviour change with respect to sanitation practices after the intervention by Sun Pharma."

Director, District Rural Development Agency (DRDA), Godhra, Government of Gujarat

**B**ooming economic activities along with population explosion [HP1] has brought about severe strain on natural resources. Besides, environmental degradation is growing concern. The SDGs put emphasis on the protection and enhancement of life below water as well as on land. In this scenario, businesses have a major responsibility to ensure that not only are their activities in compliance with environment safety regulations, but that they also contribute to environmental sustainability.

## PROJECT OVERVIEW

PROJECT/ACTIVITY	OPERATIONAL AREA			
	STATE	DISTRICT	BLOCKS	VILLAGES
Green Belt Development	Gujarat	Bharuch	1	1

The 'Green Belt Development' project has been initiated to realize our objective of environmental conservation and rejuvenation for enhanced ecological stability. One of the activities for achieving this objective is tree plantation drives in Panoli village of Bharuch district, Gujarat, specifically aiming to counter the increasing levels of air and noise pollution.

To move beyond generic tree plantation drives, Sun Pharma has taken this initiative a step further. A list of 'guiding factors' have been developed for selection of specific tree species to ensure that our prime objective is competently accomplished.

The Sun Pharma initiative is aimed at strengthening the ecological and hydrological balance in operational areas of the project.

## OUR TWO-DIRECTIONAL GUIDING FACTORS FOR SELECTION OF TREE SPECIES

Scientifically designed and proven to be tolerant to air pollutants present in the area

Indigenous and thus able to thrive and flourish under natural conditions

Sensitive to air pollution which would act as an indicator for existing level of air pollution in the area

Plant heads and employees participating in the tree plantation drive: Panoli, Gujarat

## OFFERING DISASTER SUPPORT

**A**s per the report of the United Nations World Conference on Disaster Risk Reduction 2015-2030, India ranks 28th on the Global Index of disaster risk. The primary risk group was identified as the aged population. Poor physical infrastructure to counter disaster risk was the capital concern. Consequently, India is now a signatory to a new framework on Disaster Risk Reduction (DRR). At the national level the first ever 'National Disaster Management Plan' (NDMP) has been released, focusing on prevention, mitigation, response and recovery.

In the months of November-December 2015 the state of Tamil Nadu was pounded with rainfall exceeding normal limits, resulting in massive floods. This situation of natural disaster, causing a rampant loss of lives and livelihoods, called for immediate action to restore basic human rights and dignity.

Sun Pharma conducted an immediate situational analysis to frame its response towards stabilizing the disaster situation. Immediate relief measures to meet the requirements to provide nutrition and health facilities were accordingly taken up.

By nurturing collaborative partnerships, rural communities in three disaster affected villages - Sathammai, Pudhupattu and Malaipalayam - were supported. Even though immediate relief activities have concluded, the company is still actively engaged with the target communities for their rehabilitation and overall development.

## PROGRESS MAP

#### Voices From the Field

"On behalf of the villagers I would like to sincerely thank the company for their immediate response in distributing rice bags for the flood affected people and for arranging general health camp in all three villages"

Mr. Arjunan, Ward Member

Distribution of rice bags to flood affected families: Madurantakam, Tamil Nadu

# EMPLOYEE ENGAGEMENT

Sun Pharma firmly believes that it has a responsibility to further social development and growth of the vulnerable and underserved communities, especially in its areas of operation. This is strongly imbibed in the organizational culture and every employee is encouraged to contribute towards meeting this responsibility.

In the year 2015-2016 social engagements by our employees spanned across multiple activities within the following thematic domains:

- ① Participation by 150 employees of Ranipool plants in Sikkim in a blood donation camp
- ① Participation by 200 employees from the Ranipool plants in Sikkim in awareness generation rallies, cleanliness drives, installation of disposal bins in households and schools to boost the 'Swachh Bharat Mission'
- ① Contributions and donations from 200 employees of the Halol plant in Gujarat for 'Joy of Giving' week, providing clothes, toys, stationery, school bags etc. for children residing and studying in the remote rural areas of Halol
- ① Participation of employees from the Tamil Nadu plant for distribution of 2,500 saplings across the 3 villages of Sathammai, Pudhupattu and Malaipalayam to promote the 'Green Belt Development' project
- ① Awareness and training sessions by employees from the Tamil Nadu plant on safety and road safety for 3 Government schools. It benefited teachers and students (approx. 425) across the villages of Sathammai, Pudhupattu and Malaipalayam

## A GREENER AND CLEANER SIKKIM

The year 2019 marks the 150th birth anniversary of Mahatma Gandhi and national leaders see a 'Swachh Bharat' (Clean India) as the ideal tribute to the father of the nation. Sun Pharma, in recognition of this national goal, has been taking small but concrete steps. One of the noteworthy mentions is the efforts by the Sun Pharma team at Sikkim. To put forth to the community the importance of cleanliness and hygiene and the fact that every social being has an active role and responsibility in this, 200 employees from the Sun Pharma plants at Ranipool took to the streets with brooms and dust-bins & cleaned up roads, footpaths and drains. Importance on maintaining hygiene, not only in one's home and work place but also in the general surroundings, was explained to the local community by the plant heads using different Information, Education and Communication (IEC) materials and program media. Focusing on the theme 'let's protect nature and be protected by nature' the Environment, Health and Safety (EHS) team engaged in pre-monsoon disaster preparedness and awareness.

Sun Pharma's efforts were appreciated by the local leaders as well as the local community.

*"Swachh Bharat Abhiyaan is the national agenda of the central government to keep India clean and green. The state government is making efforts to achieve 100% sanitation in Sikkim. Hygiene and cleanliness must be practiced by each human being in and around their periphery. I appreciate the efforts by Sun Pharma to spread awareness on Swachh Bharat Abhiyaan and wish for a successful delivery of this program."*

*Mr. Bishal Rai, Police Inspector, Ranipool Police Station*

# MEDIA WALL

## Minister Duo flags off Sun Pharma Mobile Medical Unit

**Sikkim Reporter Bureau  
Gangtok, Mar 10**

The Hon'ble Minister for Tourism and Civil Aviation and Commerce and Industries Department Ugen T. Gyatso along with the Hon'ble Minister for Health and Family Welfare Department Arjun Kumar Ghatani today flagged off the Mobile Medical Unit (MMU) project for Sun Pharma during an event organised at the company's Sikkim Unit. The Minister on behalf of Sun Pharma also dedicated the keys to a full time dedicated medical van to HelpAge India.

Among the list of dignitaries who were also present in the function

were MLA, Namcheyong, B.B. Rai, Senior Superintendent of Police D.B. Giri, Brajesh Chowdhury, Head CSR, Subhash Baidya, Plant Head- Sun Pharma Sikkim II, Raja Padhy, Plant Head, Sutikshan Kumar- Sr. Manager HR, Sun Pharma, all functional Heads of Plant I and Plant II and Sikkim Team, Susmita Ghosh, National Director-HelpAge India and her team. The function was graced by SDM K.L. Lepcha whereas Retd. Col. T.D. Bhutia coordinated the event on behalf of Sun Pharma.

While addressing the gathering, the Tourism Minister reiterated the importance of Corporate

Social Activities (CSR) by corporate for these areas. He also mentioned about the Health and Education improvement projects to be prioritised under such initiatives. Appreciating the objectives of MMU projects he mentioned that the people of the area would benefit from the project. He also assured full support to Sun Pharma for successful implementation of this MMU project for the Sikkimese people. He further mentioned the social development initiatives of Sun Pharma for the development of the people living in marginalised areas and wished Sun Pharma for more progress and betterment in the future.

Furthermore, he praised

the Chief Minister's vision for social development.

Similarly, the Minister of Health and IPR A.K. Ghatani appreciated the noble effort of Sun Pharma. He mentioned that this project may extend a doorstep delivery of required primary health check-up services and it will help save the lives of villagers by increasing their health standards. He also conveyed a message to the villagers for taking maximum benefit out of this project.

The officials of Sun Pharma said that such initiatives are being planned as per the community needs for the development of peripheral areas and the people

residing over there. They thanked the Government of Sikkim for extending their kind cooperation. Sun Pharma's commitment to be a social development catalyst was also reiterated.

The visionary healthcare project Mobile Medical Unit is the CSR initiative of Sun Pharma, Sikkim. The company has partnered with HelpAge India- a renowned organisation with a global footprint and expertise in MMU operation. For implementing this project in identified areas of three different constituencies in the East District which falls near to its plants, MMU is a primary health care project, unique of its kind.

**CONTINUED ON PG 2**

## From the FRONT PAGE

### Minister Duo flags off Sun...

to facilitate doorstep health facilities free of cost for the marginalised and poorer sections of the society.

This project includes a full-time dedicated health van visiting the target areas regularly with a dedicated community health and Special Protection Officer

for facilitating the medical check-up followed by free medical distribution, expert counselling and referral services.

This project under CSR initiatives will cover various locations of Rongayushengchen, Syari, Sanduk, Namir, Tumlabong, Lingzey,

Ranipool, Saramsa and Garigaon from Monday to Friday in working hours during the day time.

Sun Pharma is dedicated to the well being, welfare and health of the people residing in the peripheral areas. This is targeting to cover maximum beneficiaries in these operational areas.

## Sun Pharma felicitates water pipeline connections to 28 households

IDEI report

TO WHOM IT MAY CONCERN

This is to certify that Sun Pharma (ICI-S) Toansa ( SBS Nagar) is doing best for the betterment of society in the field of health care & medical services. Their staff has extended full co-operation to Govt. High School-Gahoon ( SBS Nagar) for maintaining students' health , blood group & Hb testing and educating the students regarding adolescence education . We wish them every success in their future social services in the field of health care .

# CSR AWARDS AND HONORS

Sun Pharma has received several prestigious awards for making a positive social impact on the society.

Sun Pharma has been honoured with Community Care Award for undertaking various initiatives to benefit the rural population living around the company's manufacturing sites. The industry association, ASSOCHAM (Associated Chambers of Commerce) awarded Sun Pharma for its "Community Care Service" at a grand ceremony held at Hotel Chanakya in Patna, Bihar on March 9, 2016. The award was given by Shri Alok Kumar Mehta, Hon'ble Minister, Cooperative Affairs, Govt. of Bihar and Shri Shiv Chandra Ram, Hon'ble Minister of Cultural Affairs, Govt. of Bihar. Azadar Khan, Vice President, India Regulatory Affairs & Corporate Relations received the award on behalf of CSR team.

The community care initiatives of Sun Pharma around its manufacturing sites and other areas were highly appreciated by both the Ministers. They also invited Sun Pharma to make investments in their state so that people of Bihar can benefit too.

While receiving the award, Mr. Khan said, "This award is an acknowledgement of the sincere efforts being made by our CSR team to help rural communities live a better life. Our vision is to bring about holistic development of underserved communities in a sustainable and impactful manner."

Sun Pharma has a large CSR footprint in India with focus on preventive, promotive and curative healthcare. Several Mobile Medical Healthcare Units are at the core of this initiative that includes sanitation and provision of safe drinking water. The program, which rides on strong community participation, has impacted a very large populace in rural India socially, financially and environmentally.

The Honourable Vice President of India, Mohammad Hamid Ansari felicitated the company for efforts made in providing primary healthcare facilities to neighbouring communities focussed upon elderly poor in Rural India. Sun Pharma's CSR team launched a programme wherein through Mobile Medical Units it provided healthcare facilities in rural India.

The company received this award on 'International Day for Older Persons,' October 1, 2015, in an event organised by HelpAge India in New Delhi to recognize the efforts of organizations in supporting the cause of rural primary healthcare. While handing over the award to Chetan Gupta, Sr. Manager - Corporate Relations, Hon'ble Vice President Shri Hamid Ansari said, "We need a transformation in how we visualize and treat the elderly in our society." He acknowledged the efforts of organisations for coming forward to support the elderly. "This is the least we need to ensure so that elderly can go through their twilight years with dignity, without having to fear that they will end up no longer counting for anything," he added.

"It is very satisfying to be able to make any contribution in the lives of rural communities who can't afford even primary healthcare. It will be our endeavour to reach out to more people to bring about a positive change in their lives" said Brajesh Choudhary. Brajesh leads the programme across these territories.

On November 30, 2015 Sun Pharma was also bestowed with the "Excellence in CSR Award" at the "India Pharma Awards - 2015" instituted by UBM-India for its Best CSR Innovation and Practices. Azadar Khan, Vice President, Corporate Relations received the award on behalf of the company in the presence of various dignitaries and representatives of Indian Pharma sector at a ceremony in Mumbai, India.

This prestigious award is given to corporates who have gone far beyond their call of duty to promote CSR activities for the benefit of the poor, downtrodden and marginalised sections of society. According to Mr. Khan, "We are committed to achieve the highest standards of CSR Practices and will continue to do so by serving our people".

# ENVISIONING TOMORROW

The year 2015-16 saw a positive build-up in Sun Pharma's CSR initiatives. The company strengthened its relationship with underprivileged communities while also forming valuable partnerships & collaborations with grassroots developmental organizations who actively supported in transforming vision into action.

The company's CSR accomplishments have given a direction and definition to its vision for the future. While, on one hand new programs & projects will be initiated to address the felt needs of the local community, on the other hand current projects will be scaled up to maximize their impact and ensure sustainability.

## TARGETS FOR 2016-2017

The company will strengthen efforts and widen reach. It will also foster new partnerships and collaborations with social enterprises and development bodies in the private and public sector.

Along with scaling up of current interventions, there are plans to extend operational areas and replicate efforts for the development and upliftment of marginalized groups and communities.

The company has plans to further the benefits of MMUs by increasing accessibility and availability of healthservices. It will also increase the outreach as well as the number of MMUs being operated.

In response to the Government of India's 'Skill India Mission' to extend skill development and training to rural youth and thus enhance their employability, the company will also be initiating projects to contribute towards this mission.

# FINANCIAL STATEMENT
